WHAT DO YOU GET WITH YOUR

Website Package?

» NO TEMPLATES

We hate using templates – it's generic and boring looking. All our websites are designed and built from scratch using the latest WordPress technologies.

» ASSISTED WEB HOSTING SETUP

We'll register the domain name for you in your own name so it is your property. Should you already own a domain, we can transfer or point the domain to your new web address.

» WEBSITE MAINTENANCE

Need a small change made to your website? Forgot to update your email address? No worries, we do monthly maintenance checks and updates on your sites. **Substantial changes may incur an additional design fee charge.*

» EMAIL SETUP

We assist you with setting up your new email address – and as an added bonus, we design you the perfect email signatures to suit.

» CONTENT MANAGEMENT SYSTEM

We use the worlds most favoured CMS system – WordPress. You have full access to your website to update & maintain it yourself if you wish.

» SEO ENABLED

We design all our website with Google in mind. We use specific keywords and add in the necessary codes to make your website Google compatible.

» GOOGLE ANALYTICS & WEBMASTER

We hook you up with the best reporting software on the planet, Google. Here you can see your website from a different angle.

» POPI Act Compliant

We make sure that your new website is POPI Act compliant. For more info on the new POPI Act, please visit www.gov.za

PRICING DOES NOT INCLUDE:

- » ISP Hosting - believe in YOU owning your website and the rights to it. We will however, assist you with name registrations and setting up of the domain.
- » Copy writing or content creation. Customer to supply all content in written format. For example, Word Doc or Text File. We will however assist where we can and recommend correct content.
